

# Challenger

# Challenger

Challenger is a microsuede quality in our Skins Collection. This collection consists only of the best leather looking articles.

Challenger is our ultimate answer to consumers' need for a flawless and easy-to-care-for plain upholstery fabric. Without concessions.

We developed a wonderful new microsuede consisting of two different microfibres. Combined in two layers through a unique proces of lamination, which was specially developed for Challenger. Challenger's upper layer is a woven microfibre while the lower layer is knitted. Resulting in a set of productspecifications that leaves furniture with a voluminous and super soft luxury feel. Available in a wide range of contempory colours to suit every style.

The impact of this high-quality timeless fabric extends beyond its physical appearance. Challenger was developed with comfort in mind. The innovative new finish provides – next to its full grip and a particularly luxurious look – an impeccable appearance in all conditions. Durable for many years of intense and happy living in private homes due to its optimal cleanability, resistance to moisture and breathability.

- Dirt and damp prevention treatment applied.
- We recommend to wash the cover inside out and immediately place the cover back to the piece of furniture, slightly damp, after washing.
- Please note that during washing the damp- and dirt prevented treatment will disappear faster.

**Textaafoam originals** Established in 1970, this Dutch family business brings together craftsmen in textiles and furniture design to build an unrivalled portfolio in upholstery fabrics that meets buyer's needs every time. Featuring a wide colour range, ultimate value for money and excellent reliability in the supply chain.
